About

Hello! I'm Amritanshu Raj, a dedicated enthusiast in the field of development technologies. My passion lies in creating remarkable digital experiences through **web and Android development**. With a strong foundation in the **MERN (MongoDB, Express.js, React, Node.js) Stack** and fundamental skills in **Data Structures and Algorithms (DSA)**, I have honed my skills to build robust and dynamic applications. I am committed to staying at the forefront of technology, constantly expanding my knowledge and staying updated with the latest trends. I enjoy working on diverse projects and solving real-world problems through innovative solutions, utilizing my expertise in both development technologies and DSA.

To Do List

This is a straightforward ToDo list website designed for managing tasks.

Users can easily add, edit, and delete tasks, and the data is stored in local storage, automatically erasing the list upon closing the website.

Technologies Utilized: HTML, CSS and JavaScript.

Take a Look

Weather App

A minimalistic weather app providing current weather information. Users can enter a location and retrieve real-time weather updates, aiding in quick weather checks and decision-making.

Technologies Utilized: HTML, CSS, JavaScript and JQuery.
